USE SWAGGER TO SUBMIT
EVIDENCE

Evidence

GET /api/v{version}/Evidence/ServiceAgreementStatistics

GET /api/v{version}/Evidence/Status/{pageIndex}/{pageSize}

POST /api/v{version}/Evidence/Details

PUT /api/v{version}/Evidence/Dispatch

PUT /api/v{version}/Evidence/ProofCertificate

PUT /api/v{version}/Evidence/ValidationProofCertificate

PUT /api/v{version}/Evidence/AuditProofCertificate

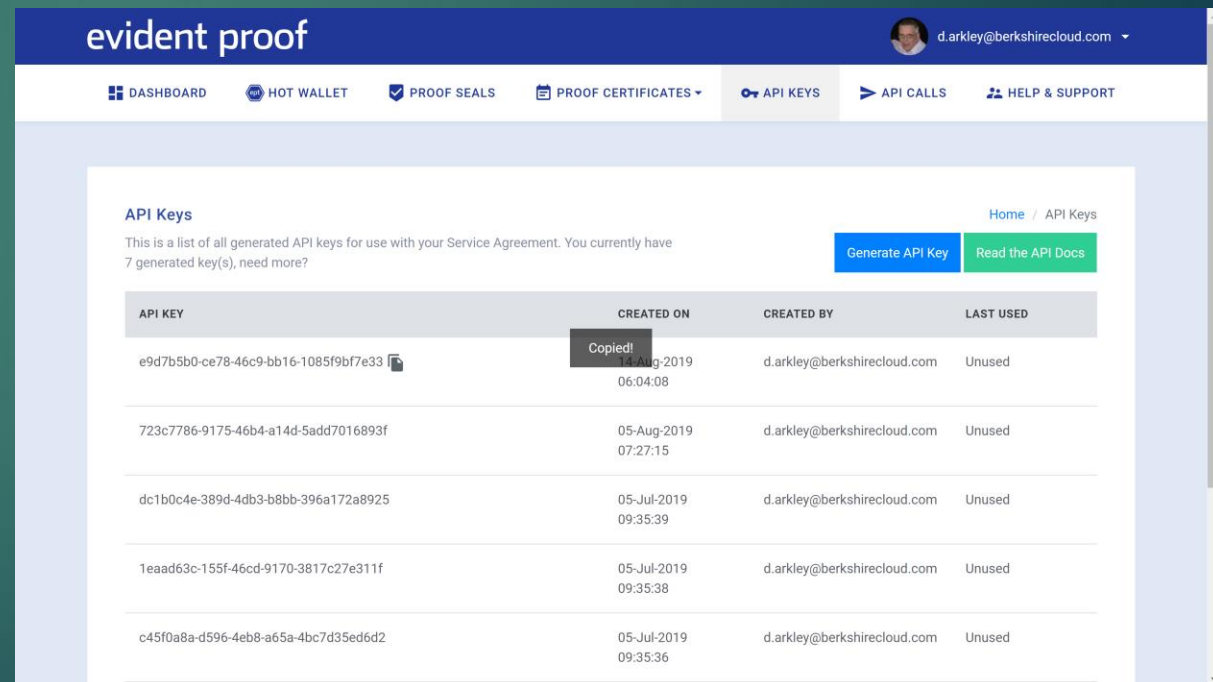

LAB

Overview

- ▶ In this Lab – you'll learn how to:
 - ▶ Generate an API key from the Evident Proof dashboard
 - ▶ Authorize the Evident Proof Swagger UI portal using your API key
 - ▶ Submit Evidence via the Evident Proof Swagger UI portal
- ▶ You should follow along, on your dashboard, with the slides.
- ▶ At the end of each section – you will be given an exercise to complete.

Generate an API key from the Evident Proof dashboard

- ▶ Navigate to the Evident Proof dashboard
- ▶ Go to the API Keys page
- ▶ Click to Generate a new API Key
- ▶ Copy the API Key to your dashboard

The screenshot shows the Evident Proof dashboard with the API Keys page selected. The page title is "API Keys" and it includes a "Generate API Key" button and a "Read the API Docs" button. Below the buttons is a table listing generated API keys.

API KEY	CREATED ON	CREATED BY	LAST USED
e9d7b5b0-ce78-46c9-bb16-1085f9b7e333	14-Aug-2019 06:04:08	d.arkley@berkshirecloud.com	Unused
723c7786-9175-46b4-a14d-5add7016893f	05-Aug-2019 07:27:15	d.arkley@berkshirecloud.com	Unused

Generate an API key from the Evident Proof dashboard

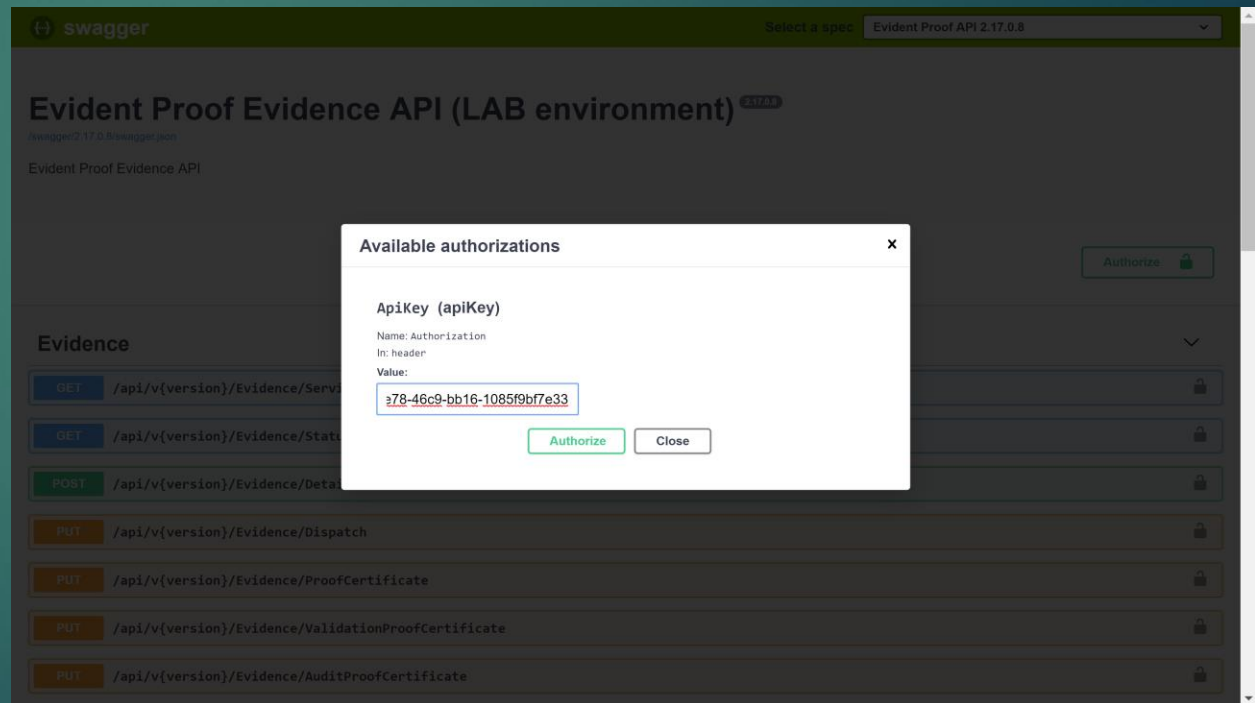

SECTION EXCERCISE

1. Paste the API Key that you have generated and copied from your Evident Proof dashboard

- _____-

Authorize the Evident Proof Swagger UI portal using your API key

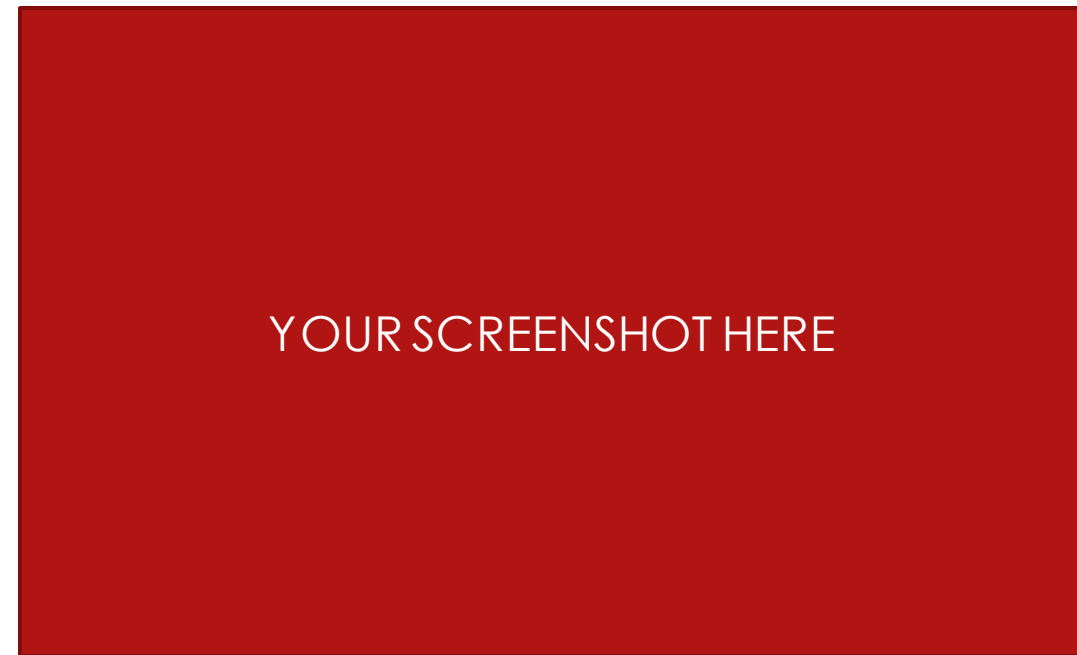

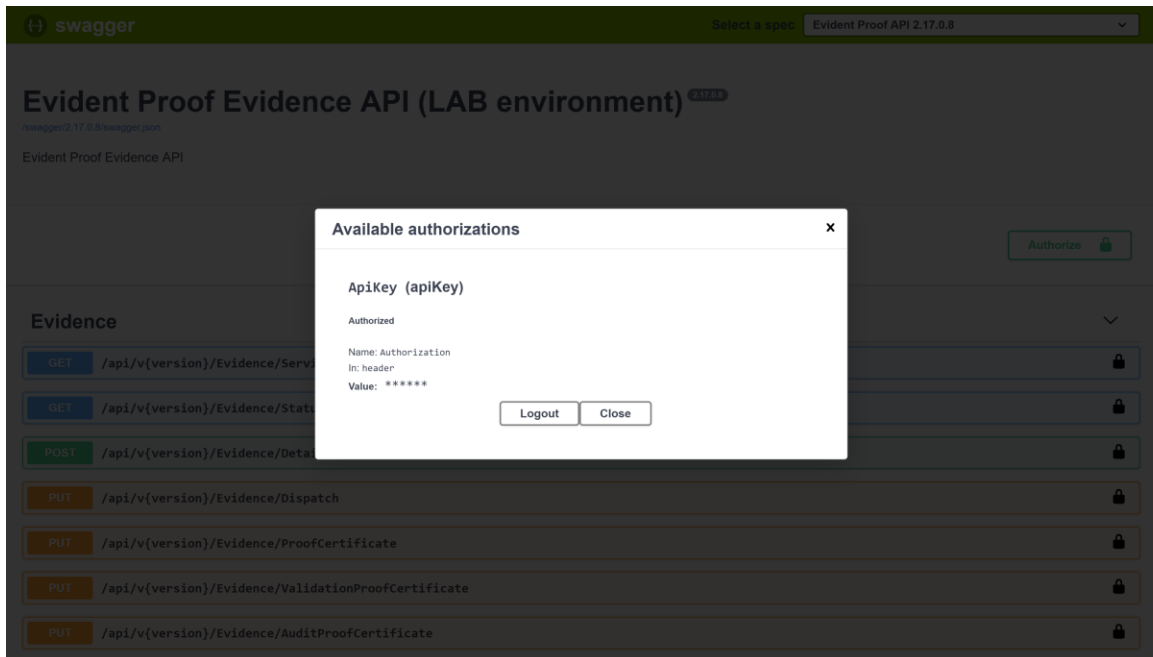

- ▶ Navigate to the Swagger UI portal using the URL provided to you
- ▶ Click on the Authorize button (right) and paste the API key you copied from the dashboard and click to confirm

Authorize the Evident Proof Swagger UI portal using your API key

SECTION EXCERCISE

Confirm that your screen now looks as follows. Take a screenshot of your screen and paste it below.

Submit Evidence via the Evident Proof Swagger UI portal

- ▶ Select the Evident/Dispatch API
- ▶ Click on “Try it out”
- ▶ You will see a screen as follows:

POST /api/v{version}/Evidence/Details

PUT /api/v{version}/Evidence/Dispatch

Parameters Cancel

Name	Description
dispatch <i>(body)</i>	<p>Edit Value Model</p> <pre>{ "header": { "sourceSystemDispatchReference": "string", "serviceAgreementIdentifier": "string", "where": "string", "when": "2019-08-15T10:50:10.845Z" }, "evidence": [{ "key": "string", "value": "string" }] }</pre> <p>Cancel</p> <p>Parameter content type application/json-patch+json</p> <p>version string <i>(path)</i></p>

Execute

Submit Evidence via the Evident Proof Swagger UI portal

SECTION EXCERCISE

1. Edit the pre-formed JSON block to submit the following values:
 - Source System Dispatch Reference: **LABTEST1**
 - Service Agreement Identified: **EP001**
 - Where: **Learning Module Location**
 - When: *Leave as default*
 - Evidence Key: **MyEvidence1**
 - Evidence Value: **MyEvidenceValue1**
2. Set the version to 1
3. Execute the request
4. Navigate to the Evident Proof dashboard
 - The receipt ID for the request you just submitted is: _____
 - _____
